

NURSERY JAWS HYBRID™

The Nursery Jaws Hybrid features a manually adjustable pivot point that allows you to handle a variety of material. The Nursery Jaws Hybrid incorporates the rugged simplicity of the Nursery Jaws I with the increased versatility of the Nursery Jaws II into one attachment. This new design combines greater carrying capacity with lighter weight. The Nursery Jaws Hybrid is one durable and versatile partner for your business.

Handles up to 60" B&B, up to 36" boxes, 65 gallon plastic containers, Grow bags, and boulders up to 3000 lbs.

"The new Nursery Jaws Hybrid has sped up our product handling over our old pallet forks. It has been a good addition to our operation. In fact we just ordered two more."
